COCOCAPE's STORY

This is the story of two architects "Aea and Oui" who love to spend their lives on the sea. It's all about coincidence in finding a fit place to be with surrounded by the activities they love; seaside adventure. On the other hand, for them it's not a coincident, could it be called a miracle? A miracle time with a miracle place; no people, quite, natural and beauty.

At first, they found that around Koh Chang territory - 52 islands, Koh Rang and her surrounded islands - 11 islands is the best place for their dream. But that area is a national park, not allow people to stay over night and quite far away from mainland.

Finally, their dream come true. They found the place on their dream. It's KohMak which is in the middle of Koh Chang area. It is easy to go to KohChang, KohWai, KohKood, and surrounded islands of Koh Mak. Especially, it only takes 10 minutes to get to Koh Rang by speedboat or 25 miutes by boat.

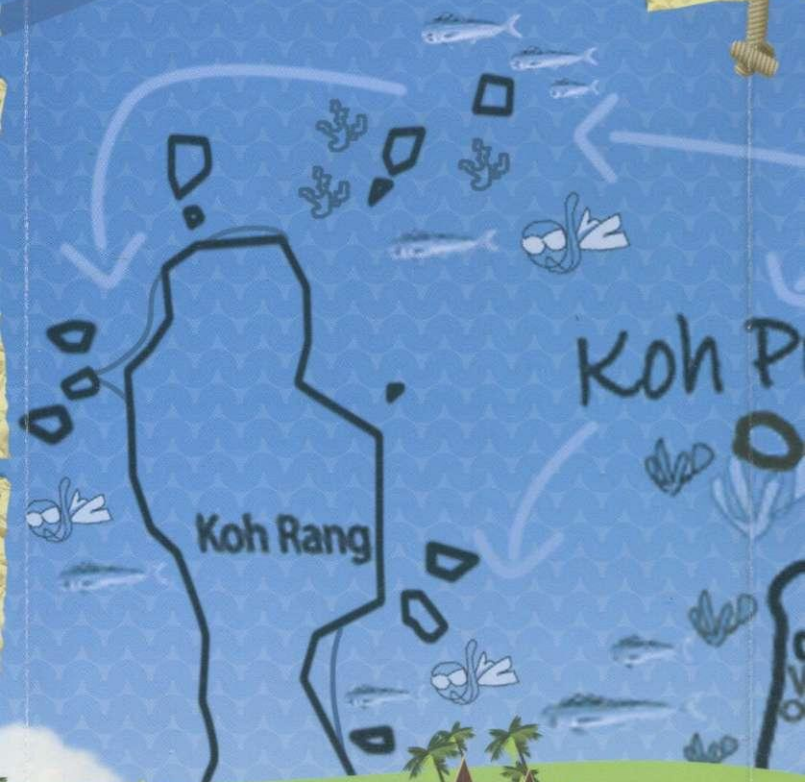

Not only its greatest way to get to other beautiful islands, but also its own natural environment with varies atmospheres counted to be the perfectly miracle place for them. The charming of white sand beach, black rock, cliff, and beautiful small islands all around,

Koh Kham, Koh rayang Nok, Koh Pee, Koh Kradad, where can be travelled around by kayuk are entirely lovely. Besides, Kohmak is not too big that they can see things around easily.

Moreover, Aea found the land that is on the cape between Ao SuanYai and Ao Pra. Facing to the ocean with has the view of KohKham in-front and panorama view of ocean with Koh Pee, ,Koh Wai, Koh LaoYa , and Koh Chang etc.

They found that it is a combination of varied bluetone of many Islands infront of and sometimes with red color of sunset. "Fantastic!" This is the only word they can tell.

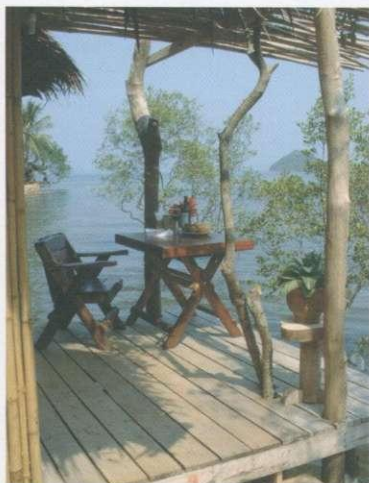

Although at first they found their beach is underwater, surprisingly they found the white sand beach which is next to their land, private with no resort long for 3 kms. As a result, they decided to buy this greates place where having hill, cape and incredible pan-orama ocean view. Also, it has a lot of coral and fish around which Just go about 200 meters to the sea.

"How about we make it like a Thai village which has varities design of bungalows like real life. Some for luxury live, some for classical live, some for adventurer, some for big family, some for couple, some in the sea, some on the hill, some for normal and some for weird. It will absolutly be fun." Oui said.

"O.K. let's make it a miracle and unforgettable land" Aea said.
